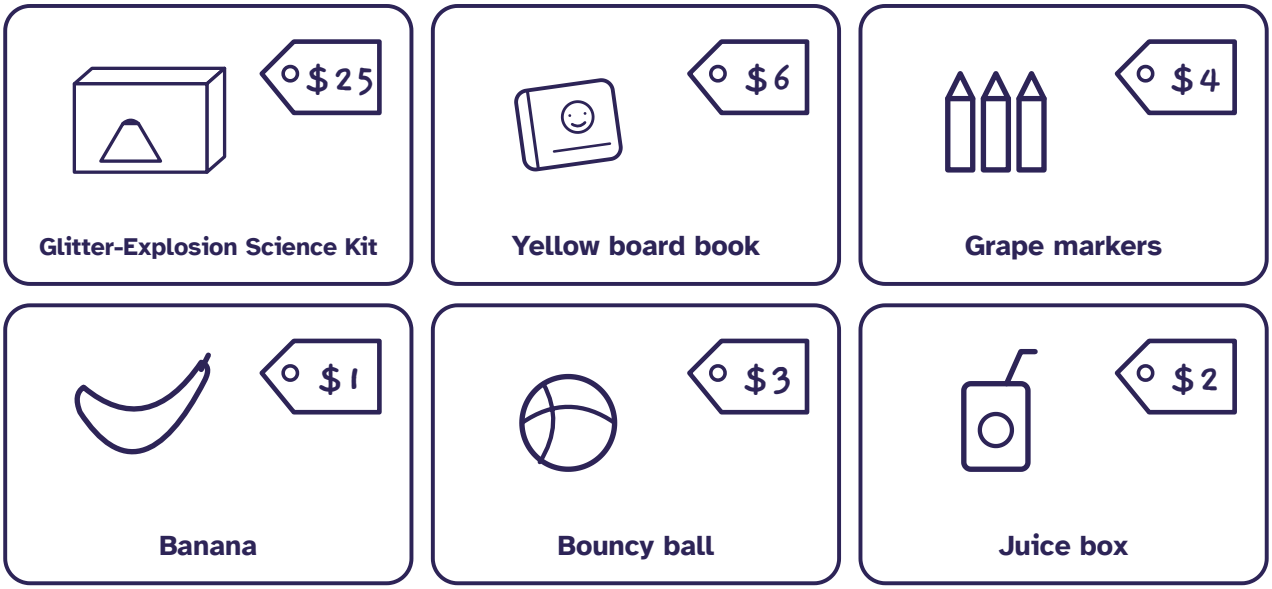
Answer key: Happy Mart price tags

Answers in red.



1. Eva earns $5 for each hour of chores. How many hours does she need to buy the kit?

   5 hours

2. Tilly wants the board book and a banana. How much is that altogether?

   $7

3. Eva has $10. She buys the grape markers. How much does she have left?

   $6

4. Which two things together cost exactly $5?

   Markers and banana, or ball and juice box

5. Can Eva pay for the kit with Eva Dollars she drew herself? Why not?

   No. Drawn money isn't earned, so the shop won't take it.
